Description

Breasley
Postureform 1000

Description:

The Flexcell Pocket Mattress Collection combines the comfort of a generous layer of memory foam with foam encased

individually responsive pocketed springs for independent support and no 'roll together'. The Flexcell Pocket 1000 features zoned

memory foam, designed with a softer feel memory foam for the head, neck, hips and lower legs area and regular memory foam

for the upper torso and thighs, offering exceptional comfort and support.

Memory foam is an ideal sleeping surface as it contours to your individual shape by responding to your body temperature,

helping to keep your neck and spine in alignment and evenly distributing weight to relieve pressure points which can cause

sleep discomfort.

The luxurious micro quilted 'Sleepcool' cover is soft to the touch, adding an extra comfort layer, and features a moisture

management system to help keep the body at an ambient temperature during sleep.

-

20cm deep mattress

-

5cm zoned memory foam

-

The equivalent of 1000 pocket springs in a King-Size Mattress

-

Contours to your body shape

- Avoids 'roll together'
